Application

I applied online. I interviewed at Safaricom

Interview

I passed the initial screening and was asked to do a codility test interview to test the programming/coding ability. There were 3 questions total. You had the option to do a demo/practice question before the actual exam /interview

Interview Questions

1:basic coding questions

2&3:coding questions that are much harder more comprehensive

Cybersecurity Expert Interview

Anonymous Employee

Application

Linterviewed at Safaricom

Interview

It was an interesting experience. Really nice staff. Just be very prepared to increase your chances. It's not all about the technical staff, keep that in mind! Otherwise I wish you all the best.

Application

1K **About Reviews Jobs** More It wanted undergraduates from Statistics, Economics, IT courses but the evaluation was online and

required you to know coding (Python, Java, etc) but never mentioned it in applying. It was a wake up call (however) to know Python at the very least

Interview Questions

It was an online Q&A requiring coding

Average Interview

Interview

It was a good process. Many candidates applied and participated. They chose their preferred one. I got the job listing through LinkedIn and applied online. I did not get the job though but I will try again next time.

- Neutral Experience
- Average Interview

Application

I interviewed at Safaricom

Interview

Not so bad although the process wasn't so clear and there were so many applicants. Process was stopped when MJ left as CEO & no communication made to those who had gotten to the second stage. Time wasted
